SKIN CARE & TREATMENT OINTMENTS & GELS

Sion Biotext Medical Ltd develops, manufactures and markets topical skin care and treatment ointments and gels. The products are manufactured according international standards and are marketed worldwide.

Our Quality Assurance System is accredited with ISO 9001 and ISO 13485 and our modern production equipment complies with GMP directives.

The line includes various pharmaceutical-grade based creams that provide skin protection and maintain optimal skin integrity. The rich product formulations provide value both in the cost per unit and the volumes needed per use.

The products are available in a variety of package sizes and dispensing options and on a Private Label basis.
